Shepard's® BriefCheck™ for the Web:
Now more cite-checking accuracy
& more Web flexibility

Draft high-quality, winning legal briefs, motions and pleadings faster and more accurately with *Shepard's* BriefCheck for the Web, a new, cite-validation tool that combines the authoritative power of *Shepard's®* Citations Service with the convenience of the Web.

Shepard's BriefCheck for the Web identifies legal citations within your document, validates citations through *Shepard's* Citations Service and generates a concise summary report tagging problem cites for immediate attention.

If you subscribe to *Shepard's*® Brief Suite™, *Shepard's* BriefCheck is available at no extra charge.* (Ask your LexisNexis® account executive about transactional use pricing.) There are **no printing charges** to print BriefCheck cite lists and reports. One more major plus: **regenerate** a *Shepard's* **BriefCheck report within 72 hours— no extra charge**.
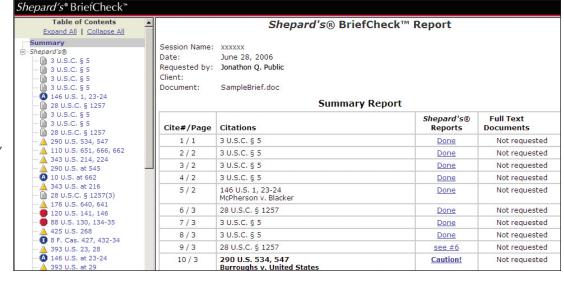

Count on *Shepard's* BriefCheck to add flexibility to your *Shepard's* Brief Suite collection. While *Shepard's*® CheckCite® software application checks case-law and law-review citations, *Shepard's* BriefCheck on the Web also:

- Checks U.S. and state statutes, patents, tax & treasury materials and legislative documents as well as cases and law reviews.

- Provides a "smart" answer set for statutes. Get only those *Shepard's* reports with legislative history and citing decisions with negative analysis. Relevant information without extra steps—or cost.

- Offers checked cases' LexisNexis® Headnotes, Core Terms and LexisNexis® Case Summaries in attached full-text documents and *Shepard's* Signal™ indicators for fast identification of problem areas. (Also find *Shepard's* Signal indicators for citing references.)

- Delivers results as an *e-mail attachment*. Add a note and send!

Plus *Shepard's* BriefCheck alerts you to invalid cites in your document, i.e., text that looks like cites, but doesn't contain all the appropriate elements. What a timesaver!
